ABOUT VERTEX ENERGY, INC.

Vertex Energy, Inc. (NASDAQ: [VTNR](#)) is a leading environmental services company that recycles industrial waste streams and off-specification commercial chemical products. Its primary focus is recycling used motor oil and other petroleum by-product streams. Vertex purchases these streams from an established network of local and regional collectors and generators. Vertex also manages the transport, storage and delivery of the aggregated feedstock and product streams to end users, and manages the re-refining of a portion of its aggregated petroleum streams in order to sell them as higher-value end products. Vertex sells its aggregated petroleum streams as feedstock to other re-refineries and fuel blenders or as replacement fuel for use in industrial burners. The re-refining of used motor oil that Vertex manages takes place at its facility, which uses a proprietary Thermal Chemical Extraction Process (“TCEP”) technology. Based in Houston, Texas, Vertex also has offices in Georgia, Chicago, and California. More information on Vertex can be found at www.vertexenergy.com.

This press release may contain forward-looking statements, including information about management's view of Vertex Energy's future expectations, plans and prospects, within the safe harbor provisions under The Private Securities Litigation Reform Act of 1995 (the "Act").
