

## **VERTEX ENERGY, INC. ANNOUNCES JOINT MARKETING AGREEMENT WITH DUTCH FIRM PENTHOL TO SELL GROUP III BASE OIL**

### **Vertex Explores New Base Oil Market**

#### **First Cargo of 75,000 Barrels Has Arrived in Braithwaite, Louisiana**

HOUSTON, TX, August [9], 2016 Vertex Energy, Inc. (NASDAQ:VTNR), is a refiner and marketer of high-quality specialty hydrocarbon products., announced today that it has agreed with Penthol C.V. of the Netherlands to act as Penthol's exclusive agent to market Group III base oil. Penthol will import Group III base oil from the United Arab Emirates to the United States.

The first cargo of 75,000 barrels of base oil arrived in Braithwaite, Louisiana, at the end of July.

Vertex has taken on the responsibilities, in cooperation with Penthol LLC (A Penthol subsidiary in the United States), for marketing, sales, and logistical duties in North America. The two companies will be offering Group III base oil in 4 cSt, 6 cSt and 8 cSt viscosities under the Vertex-Penthol name.

Benjamin P. Cowart, Chairman and CEO of Vertex Energy stated, "We are very excited to be working with Penthol in this initiative. The Base Oil plant operated by ADNOC is designed to produce 10,000 barrels per day of 4/6/8 cSt Group III Base Oils, so we are confident that our supply is reliable and pricing will reflect the global oil market."

Faruk Erkoc, Chairman of Penthol LLC said, "Vertex provides great value to Penthol with its extensive background and experience in marketing and selling petroleum products in the United States. Vertex-Penthol have arranged logistic infrastructure, utilizing storage tanks, new rail cars, trucks and barges for the delivery of base oil to customers identified by Vertex throughout the United States. Vertex has the market knowledge and depth of experience that gives us confidence that our investment in the United States will provide early and ongoing returns."

In a recent report, Transparency Market Research stated that base oil demand by 2020 will reach 39,614.7 kilo tons, up from 36,614.3 kilo tons in 2014, developing at a 1.4% CAGR during that period. In addition, the report says that a shift from Group I to Group II and Group III base oil is expected during that period.
